Asia's first integrated day-definite
road network service.

It's our business to deliver yours

The leading provider of business-to-business express delivery services, TNT has launched Asia's first integrated road network, strengthening the connection within Asia. The network links over 120 cities across 4,000km and will include China by 2007. The TNT Asia Road Network offers businesses a cost and time effective solution that will provide significant savings compared to air freight and has transit times that are two to three times faster than sea freight.

What is it?

TNT's Asia Road Express is the first integrated day-definite road delivery network in Asia. Through our unrivalled network, it enables us to provide you with the fastest door-to-door; customs-cleared express delivery by road.

While we have routes that connect Singapore, Malaysia, Thailand and Vietnam, the network will be linked into China by the end of 2007.

So whatever your desired destination, we've got it covered!

With a network that spans 4,000 kilometres and 120 cities, this superior express delivery service offers:

- **Door-to-door services** for parcels and freight
- **Day definite delivery** using specified transit schedules
- **Customs clearance** for dutiable items
- **Full track & trace visibility** with confirmation of delivery as required

Control and manage your costs

TNT's Asia Road Express offers you a transparent all-inclusive pricing. The service, is cheaper than air freight and much faster than sea freight. Offering you greater flexibility to control and manage your costs.
