

Customs Clearance

Schedule of Fees

Item	Fees (Inc. GST)
Storage	\$22 or \$0.22/kg, whichever is greater
Undervalued consignment (EMPP)	\$100
Entry amendment	\$132
3 rd Party Broker Handover	\$55
Personal Effects	\$110
Customs report (each)	\$22

Storage

TNT will charge a storage fee from the third day after consignment arrival or notification to a third party broker, whichever is greater, where the consignment cannot be customs cleared.

Undervalued consignment (EMPP)

All consignments that are mis-declared and require Evidence of Monies Price Paid (EMPP) attract an undervalued consignment fee. This fee covers the cost of re-declaring the true Customs value and paying any associated Duties and Taxes (if applicable).

Entry amendment fee

Entry amendment is performed post-arrival and requires administration to facilitate amending the customs declaration with Australian Border Force. This typically involves collation of relevant paperwork, researching legislation, submitting entry alterations and adjusting the relevant charges owing.

3rd Party Broker Handover

TNT will charge a third party handover fee where the importer nominates a third party to act as their customs broker and TNT is required to handover clearance information to that third party.

Personal Effects fee

TNT will charge a personal effects fee to perform personal effects inbound clearance for goods that have been owned and used overseas for longer than 12 months via a B534 Unaccompanied Personal Effects statement.

Customs Reports

TNT can provide Importers with GST deferral reports on a Weekly, Monthly, or Yearly basis.
