<u>Demand Surcharge reinstatement effective March 5, 2026</u>

Due to ongoing geopolitical disruptions affecting international transport routes, we are making necessary adjustments to ensure we continue delivering reliable, high-quality service. These conditions have created constraints on airspace availability, extended transit distances, and increased operational complexity across key lanes. As a result, the cost of maintaining service reliability in certain regions has risen.

To help offset these additional operating costs and ensure continuity of service, we are introducing a Demand Surcharge on TNT international shipments, to and from India, Middle East, North Africa, and Sub-Saharan Africa (SSA[2]) region.

The table below outlines the DS charge that will be applicable effective **March 5, 2026 - Until further notice.**
