IMPORTING **PERFUMERY AND COSMETICS** TO THE RUSSIAN FEDERATION WITH TNT

PLEASE MIND THE FOLLOWING:

How are these products classified?

Most goods related to perfumes and cosmetics are listed in the 33 and 34 goods groups of the EAEU Commodity Nomenclature of Foreign Economic Activity (EAEU CN FEA).

More details are provided in the Attachment.

What is important for customs clearance?

INFORMATION ON GOODS FOR DECLARATION PURPOSES

Product description is a key source of information for the correct classification of imported goods. Make sure your description of perfume and cosmetic product contains complete information on:

- The composition of the imported cosmetics
- Their intended purpose
- Directions for use
- Type of individual product packaging (consumer packaging), its volume
- Trademark (logo, brand)
- Presence/absence of ethanol in the product

An example of a correct product description:

What can serve as evidence of the above information?

- Expert opinion (certificate of expert review) or applicable technical specifications (industrial standard)
- Instructions for use or information on the product packaging
- Information from the manufacturer (brochures, catalogues, information available on the official website)
- Material Safety Data Sheet (MSDS) or certificate of analysis

Availability of a permit:

The circulation of perfumes and cosmetics in consumer packaging in the Eurasian Customs Union (EACU) is regulated by the 009/2011 “Safety of Cosmetic Products” EACU Technical Regulation.

THE RELEASE OF MENTIONED PRODUCTS INTO CIRCULATION IS ONLY POSSIBLE AFTER OBTAINING A CONFIRMATION OF CONFORMITY IN THE FORM OF:

Declaration

State registration

Document

Declaration of conformity

Certificate of the State Registration of the Product

Actions required to obtain the document

Actions should be carried out prior to the actual importation of goods into the Russian Federation. The document is issued on the basis of tests conducted by an accredited testing laboratory (center); mandatory importation of samples for testing purposes is required.

Actions should be carried out prior to the actual importation of goods into the Russian Federation. The document is issued on the basis of tests conducted; mandatory importation of samples for testing purposes is required.

Where do I apply for it?

Declaration of conformity is provided by an accredited certification body. Please submit documents confirming importation and testing of the samples.

State registration of perfumes and cosmetics is carried out by the organization of the EACU member state (hereinafter the registration authority) authorized to conduct such registration in accordance with the laws of the corresponding state. In the Russian Federation, Rospotrebnadzor is the registration authority.

Obtaining a license for alcohol-containing products

Some perfume and cosmetic products may contain ethyl alcohol. The state thoroughly monitors the circulation of such products and sets specific limits on their use.

A LICENSE IS ISSUED BY ROSALKOGOLREGULIROVANIE FOR THE PURCHASE (INCLUDING IMPORT) OF ALCOHOL-CONTAINING PRODUCTS IF THESE PRODUCTS CONTAIN ETHYL ALCOHOL IN THE AMOUNT EXCEEDING 0.5 PERCENT OF THE VOLUME OF THE FINISHED PRODUCT, EXCEPT FOR PRODUCTS PACKED IN CONSUMER CONTAINERS (PACKAGING) OF A SPECIFIC VOLUME (DEPENDING ON THE TYPE OF PRODUCT):

Other restrictions

- Some goods are subject to conformity assessment in the form of declaration of conformity according to Decree No. 982 of the Government of the Russian Federation dd. December 1, 2009; in this case technical regulations of perfumes and cosmetics are not applied for conformity assessment. Such products include contact lens care products or dental and oral hygiene preparations, as well as aerosol household chemicals.
- Some goods may also fall under the requirements of the TR CU 019/2011 "On safety of personal protective equipment" regulations. For instance, such goods include anti-UV products.
- There exist a number of requirements for goods falling within the scope of the TR CU "Safety requirements of food additives, flavorings and processing aids" regulations. These are goods of the 3302 group, for example.
- In some specific cases, a permit or veterinary certificate is required prior to importation of goods. This is true for goods of the 3302 group, for example.

Requirements to the marking of goods

The marking of goods is subject to the following requirements, depending on the purpose of importation.

PURPOSE OF IMPORTATION:

Samples for product certification

Marking by the manufacturer of the goods is sufficient

Batch of products for circulation in the market

Mandatory labelling with a single EAU circulation marking for each product unit is required. Such marking shall be affixed prior to importation into the Russian Federation.

EAC

A complete list of requirements to the marking for perfumes and cosmetics is provided in Paragraph 9.2 of TR CU 009/2011
