Service delays and transit time changes to and from the Americas for FedEx services

The logistics market is experiencing a high demand of shipments to and from the United States of America, and operational challenges due to developments related to the Covid-19 omicron variant. Consequently, FedEx shipments from and to the US, Canada and Latin America may be delayed.

Contingency plans are in place, including plans to add extra capacity to the network to move the delayed shipments and meet future demand.

•To and from the Americas:

- International Economy Freight (IEF) service is temporarily suspended the until further notice.
- The quoted transit times for some of our services for customers shipping to and from the Americas were extended, to provide customers with accurate transit times reflecting the contingency set up and ensure service reliability. Customers using our FedEx International Priority, FedEx International Priority Freight, FedEx International Economy, FedEx International Economy Freight will experience the changes as per the below:

- Surgical N-95 Filtering Facepiece Respirators;
- PPE Surgical Masks including masks that cover user's nose and mouth;
- PPE Nitrile (exam and surgical) Gloves;
