

Temporary transit time extension from Europe to the Americas for FedEx International Priority Freight

Due to temporary adjustments to our transatlantic air network, transit times for FedEx International Priority Freight (IPF) shipments from Europe to the US, CA and LAC will be extended by 1 day, effective 29th August until 2nd October 2022. Transit quotation tools and online shipping applications will be updated to reflect these changes.

Freight, Heavyweight and Non-Standard shipments

- Intra-European and intercontinental freight services, as well as non-standard shipments continue to be impacted by 24 to 48 hour transit extensions, due to volume demand and capacity limitations at our main air network hub at CDG, Paris.
- Effective Monday 8th August and until further notice, a restriction on **intra-European** Express Freight shipments will be implemented limiting shipments to 500kg per shipment in order to support high demands and ensure we can offer customers a consistent reliable service. This impacts all European shipping lanes, and applies to both FedEx and TNT products.

Temporary service restrictions and extended transit times related to Accessible Dangerous Goods

Accessible Dangerous Goods packages above 32 kg and/or dimensions above than 75 cm height and 120 cm width/length will not be accepted temporarily to a few countries, as follows: - Countries that the service is temporarily suspended (in and out): Finland, Norway, Lithuania, Latvia and Estonia. - Countries that the service will remain available, but customers may experience longer transit times than the quoted ones: Sweden and Denmark. • For clarity: all Accessible Dangerous Goods packages under 32kg and below 75 cm height and 120 cm width/length will continue to be accepted to all countries with no impact. There is no restriction on Inaccessible Dangerous Goods packages.

Temporary service suspensions and impacts globally

Europe

Country*	Remarks

United States suspensions, service impacts and restrictions

PPE Temporary Export and Import Restrictions

The U.S. Federal Emergency Management Agency (FEMA) issued a Temporary Final Rule in April 2020 to designate certain Personal Protective Equipment (PPE) health and medical resources exclusively for domestic use, so that these resources may not be exported from the United States without explicit approval by FEMA.

FEMA has extended and amended the Temporary Final Rule designating US export prohibition of these PPE resources from the previous December 31st, 2020 expiration date until June 30th, 2021.

The extension of this rule now covers five types of PPE and further clarifies the types of surgical masks subject to the allocation order and adds specific syringes and hypodermic needles to include:

- Surgical N-95 Filtering Facepiece Respirators;
- PPE Surgical Masks including masks that cover user's nose and mouth;
- PPE Nitrile (exam and surgical) Gloves;
- Surgical Gowns and Surgical Isolation Gowns classified as "Surgical Gown Barrier Protection";
- Medical Control Flow Syringes and hypodermic single lumen needles.

For further information, please refer to the FEMA Temporary Final Rule.
