# PREPARING YOUR DOCUMENTS

## CONSIGNMENT NOTES

Consignment notes help to ensure your shipment is delivered as quickly as possible. When you’re sending a shipment, you’ll need to create a consignment note. It contains all the details about your shipment and accompanies the shipment throughout its journey. The easiest way to prepare your consignment note is to use one of our online shipping tools.

When you have entered all details for your shipment, the online tool will generate a consignment note which you can print onto plain paper. If you would prefer not to use our online tools, you can manually complete a consignment note for your shipment.

The examples below show you the details you will need to complete.

### CONSIGNMENT NUMBER

Every shipment is assigned a unique consignment number. It appears underneath the barcode of the note. You can use these letters and numbers to track the status of your shipment through our tracking tools.

COMMERICAL INVOICES

Customs authorities require an invoice for all international shipments.

A proforma invoice is for goods with no commercial value. We advise customers to use their own invoices, but the example below shows the information that should be included.

To make things even easier, you can use our online tools, visit <Link> or see page <XX> for more information.

10. Clearly state currency in which the value of goods is expressed.
11. Total value of all goods covered by the invoice.
12. INCO Term is based on the transaction and payment between the seller and buyer of the goods and the official point of hand-over of responsibility.

Track and analyse your CO₂ footprint.
