CONSIGNMENT NOTES

Consignment notes help to ensure your shipment is delivered as quickly as possible. When you’re sending a shipment, you’ll need to create a consignment note. It contains all the details about your shipment and accompanies the shipment throughout its journey. The easiest way to prepare your consignment note is to use one of our online shipping tools. When you have entered all details for your shipment, the online tool will generate a consignment note which you can print onto plain paper.

CONSIGNMENT NUMBER

Every shipment is assigned a unique consignment number. It appears underneath the barcode of the note. You can use these letters and numbers to track the status of your shipment through our tracking tools.

INFORMATION TO BE INCLUDED ON A CONSIGNMENT NOTE

1. FROM (COLLECTION ADDRESS)

Complete with company name, collection address, contact name and telephone number.

2. TO (RECEIVER ADDRESS)

# COMMERCIAL INVOICES

Customs authorities require an invoice for all international shipments.

A commercial invoice is used when goods are part of a commercial transaction or intended for sale.

A proforma invoice is for goods with no commercial value. We advise customers to use their own invoices, but the example below shows the information that should be included.

To make things even easier, you can use our online tools, see page 14 for more information.

## INFORMATION TO BE INCLUDED ON A COMMERCIAL INVOICE

1. The word “invoice” (“Proforma” invoices are only acceptable in certain circumstances).
2. Sender company name and address.
3. Receiver company name and address.
4. Date of invoice.
5. Invoice number.
6. Full description of each item of goods supplied (catalogue and part numbers are not sufficient to describe the goods) to enable correct Customs Tariff Classification.
7. Country of origin (i.e. where manufactured) of each type of goods being supplied.
8. Please include this information (if known) – also referred to as a ‘commodity code’. In the absence of a Tariff being provided, a full and accurate description of goods MUST be supplied.
9. Quantity of each item of goods supplied.
10. Clearly state currency in which the value of goods is expressed.
11. Total value of all goods covered by the invoice.
12. INCO Term is based on the transaction and payment between the seller and buyer of the goods and the official point of hand-over of responsibility.

MAKE SURE YOUR SHIPMENT IS FIT TO TRAVEL

We rely on customers to pack their shipments well, so we can deliver them in perfect condition.

Follow these simple tips to ensure your shipment will be delivered to your customer just as you want it to.

PREPARE YOUR SHIPMENT IN 5 EASY STEPS

BOXES

1. CHOOSE QUALITY
   - Used boxes lose strength. Ensure your box is rigid and in good condition.

2. AVOID EMPTY SPACE
   - Too much padding reduces stacking strength. Avoid boxes that are too big for your contents and require excessive padding. They risk getting crushed.

3. HEAVY BOXES
   - We can accept boxes up to 70kg without a pallet, but please put a “HEAVY” label on boxes over 23kg.

4. SEAL WITH AN H
   - Use proper sealing tape in an H pattern on top and bottom, and consider strapping heavier boxes.

5. LABEL CLEARLY
   - Remove old labels. Affix new labels on top, so the barcode is flat (not folded over the edge).

PALLETs

1. STACK IN COLUMNS
   - Columns ensure maximum stacking strength. If the contents are rigid, you can use ‘bricklayer style’ for increased stability.

2. DO NOT OVERHANG
   - Items should fit squarely on the pallet, without hanging over the edge. We can’t accept overhanging pallets.

3. KEEP IT FLAT
   - A level top surface makes it strong, compact and stackable. Non-stackable pallets will incur a surcharge.

4. STRAP IT OR WRAP IT
   - Use strapping and/or stretch wrapping to hold items in place on the pallet. Wrapping should include the pallet itself.

5. LABEL CLEARLY
   - Pallets are stacked for transport, so labels need to be affixed to the side, not the top.

AVOID THESE PACKAGING PITFALLS

Imperfect packaging can put your goods, other shipments, and our TNT team members at risk.

Before accepting any shipment, our driver will verify that it is “fit for travel.”

BOXES

- UNSUITABLE PACKAGING
  - No heavy items in weak boxes. Boxes must be of sufficient strength, quality and size. If necessary, use additional strapping to strengthen your box.

- DAMAGED BOXES
  - No punctured, crushed or otherwise damaged boxes.

- WET BOXES
  - No wet, leaking or water-damaged boxes.

- BOXES > 70 KG
  - Boxes heavier than 70 kg must be palletized.

PALLETs

- UNATTACHED ITEMS
  - Everything must be attached to the pallet with strapping and/or wrapping to form a single, inseparable unit.

- OVERHANGING PALLETs
  - Items must not exceed the dimensions of the pallet.

- LOW-QUALITY PALLETs
  - No poor-quality or damaged pallets.

- SHARP EDGES
  - No exposed sharp items. Ample padding is required to prevent injury.

- PROTRUDING PARTS
  - Items that overhang or stick out could cause injury or damage other shipments.

For packaging tips and advice: tnt.com/fit-to-travel

Shipments containing dangerous goods must be fully compliant with IATA and ADR regulations.
CALCULATING VOLUMETRIC WEIGHT

Large, light packages are charged by volumetric weight. This means the cost of the shipment is calculated on the space your consignment occupies rather than what it actually weighs. This is a standard IATA calculating method.

To calculate the volumetric weight of your shipment simply multiply length by width by height, then multiply this figure by the relevant conversion factor in the table below. For example, below we have calculated the volumetric weight of a box and of a cylinder.

EXAMPLE FOR EXPRESS SERVICES

**Box**
- Length: 0.9m
- Width: 0.4m
- Height: 0.3m
- Conversion factor: 0.108
- Volumetric weight: 22kg

**Cylinder**
- Diameter: 0.3m
- Height: 0.4m
- Conversion factor: 0.036
- Volumetric weight: 7.5kg

• Extra peace of mind: your delivery is insured against all risks, with compensation up to the full value of your shipment
• Low rates: an additional charge of just 1% of the value of goods (2) (depending on country)
• Easy management: just choose the enhanced liability option when you book, whether online or over the phone
