PREPARING YOUR DOCUMENTS

CONSIGNMENT NOTES

Consignment notes help to ensure your shipment is delivered as quickly as possible.

When you're sending a shipment, you'll need to create a consignment note. It contains all the details about your shipment and accompanies the shipment throughout its journey. The easiest way to prepare your consignment note is to use one of our online shipping tools.

When you have entered all details for your shipment, the online tool will generate a consignment note which you can print onto plain paper.

CONSIGNMENT NUMBER

Every shipment is assigned a unique consignment number. It appears underneath the barcode of the note. You can use these letters and numbers to track the status of your shipment through our tracking tools.

MAKE SURE YOUR SHIPMENT IS FIT TO TRAVEL

We rely on customers to pack their shipments well, so we can deliver them in perfect condition.

Follow these simple tips to ensure your shipment will be delivered to your customer just as you want it to.

PREPARE YOUR SHIPMENT IN 5 EASY STEPS

BOXES

- 1 **CHOOSE QUALITY**
Used boxes lose strength. Ensure your box is rigid and in good condition.
- 2 **AVOID EMPTY SPACE**
Too much padding reduces stacking strength. Avoid boxes that are too big for your contents and require excessive padding. They risk getting crushed.
- 3 **HEAVY BOXES**
We can accept boxes up to 70kg without a pallet, but please put a "HEAVY" label on boxes over 23kg.
- 4 **SEAL WITH AN H**
Use proper sealing tape in an H pattern on top and bottom, and consider strapping heavier boxes.
- 5 **LABEL CLEARLY**
Remove old labels. Affix new labels on top, so the barcode is flat (not folded over the edge).

PALLETS

- 1 **STACK IN COLUMNS**
Columns ensure maximum stacking strength. If the contents are rigid, you can use 'bricklayer style' for increased stability.
- 2 **DO NOT OVERHANG**
Items should fit squarely on the pallet, without hanging over the edge. Although we do accept overhanging pallets, shipments that fit on the pallet are preferred since this reduces risk of damage.
- 3 **KEEP IT FLAT**
A level top surface makes it strong, compact and stackable. Non-stackable pallets will incur a surcharge.
- 4 **STRAP IT OR WRAP IT**
Use strapping and/or stretch wrapping to hold items in place on the pallet. Wrapping should include the pallet itself.
- 5 **LABEL CLEARLY**
Pallets are stacked for transport, so labels need to be affixed to the side, not the top.

AVOID THESE PACKAGING PITFALLS

Imperfect packaging can put your goods, other shipments, and our TNT team members at risk.

Before accepting any shipment, our driver will verify that it is "fit for travel."

BOXES

UNSUITABLE PACKAGING

No heavy items in weak boxes. Boxes must be of sufficient strength, quality and size. If necessary, use additional strapping to strengthen your box.

DAMAGED BOXES

No punctured, crushed or otherwise damaged boxes.

WET BOXES

No wet, leaking or water-damaged boxes.

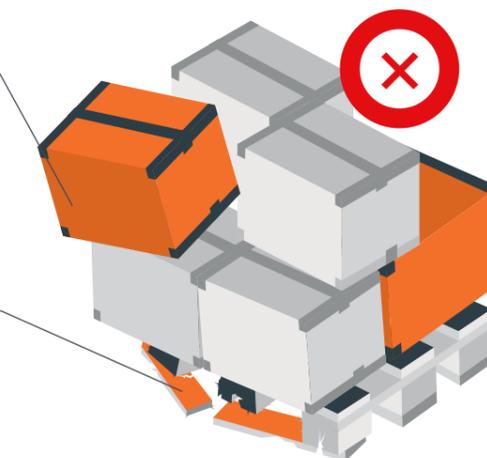

BOXES +70 KG

Boxes heavier than 70 kg must be palletised.

PALLETS

UNATTACHED ITEMS

Everything must be attached to the pallet with strapping and/or wrapping to form a single, inseparable unit.

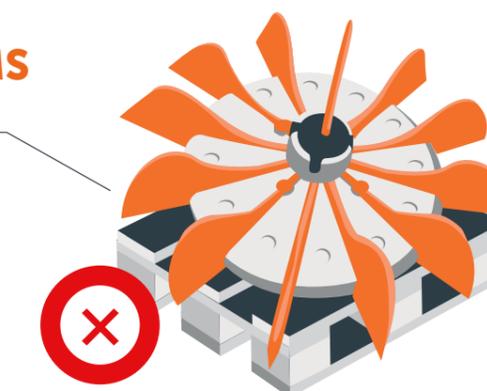

LOW-QUALITY PALLETS

No poor-quality or damaged pallets.

IRREGULAR ITEMS

SHARP EDGES

No exposed sharp items. Ample padding is required to prevent injury.

PROTRUDING PARTS

Items that overhang or stick out could cause injury or damage other shipments.

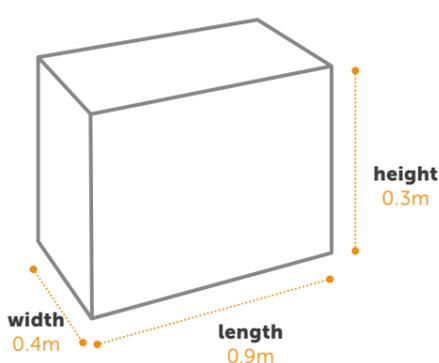

⚠ Shipments containing dangerous goods must be fully compliant with IATA and ADR regulations.
